

45V Photovoltaic Panel Controller

Morningstar's TriStar Controller (TS-45) is a three-function controller that provides reliable solar battery charging, load control or diversion regulation. The controller operates in one of these modes at a ...

This powerful 45A 12/24/36/48V solar charge controller with LCD display features advanced monitoring and programming features, offering full control over the charging process and the option to adjust ...

Morningstar's TriStar Controller (TS-45) is a three-function controller that ...

The ViewStar AU series common positive solar charge controller with built in ...

The ViewStar AU series common positive solar charge controller with built in LCD display that adopts the most advanced digital technique. The multiple load control modes enable it can be widely used ...

Uses advanced technology and automated production to provide exciting new features at a competitive cost. The controller is UL listed and is designed for both solar home systems and professional ...

Morningstar's TriStar(TM) is a three-function controller that provides reliable solar battery charging, load control or diversion regulation. It is rated at 45 amps, both at 12-48 volts, and has an optional meter, ...

Their advanced technology ensures optimal power output and extends battery life through precise charge control and energy management. Built for durability and ease of use, Morningstar products ...

Our selection of 45 amp solar charge controllers are easy to install and are designed to provide maximum efficiency. Choose from MPPT and PWM options.

A 45 amp solar charge controller costs more if it uses MPPT technology. In exchange, you gain up to 99% charging efficiency and more control over the charging process.
