

Agile octopus explained

We review the Agile Octopus smart energy tariff from Octopus Energy. We explain the pros and cons as well as how to apply.

Agile Octopus is the ultimate smart tariff for hands-on users. Your electricity price changes every 30 minutes, giving you a unique opportunity to shift your energy use to the absolute cheapest--and ...

We launched Agile Octopus to encourage households to shift their consumption ...

What is the Agile Octopus tariff? Agile Octopus tariff is an electricity time-of-use tariff where the rate that is paid per kilowatt-hour (kWh) of energy used varies by time of the day.

What is Agile Octopus, and how do I join? Agile Octopus is one of our beta smart tariffs, offering customers electricity prices that change every half an hour, based on the wholesale price of energy. ...

Agile Octopus (its official name) directly tracks the wholesale market, passing prices through to customers every 30 minutes. It was the UK's first mainstream tariff to do this, with a £1 / kWh cap to ...

Agile Octopus is one of our smart tariffs, helping bring cheaper and greener power to all our customers, but it is directly impacted by the wholesale market ...

We launched Agile Octopus to encourage households to shift their consumption from the daily peak energy demand period of 4.00pm to 7.00pm when we're paying very high wholesale prices.

Agile customers are able to check energy prices for the following day online and through the Octopus app at 4:30pm every day. This allows them to see when the cheapest windows will be the next day, ...

Agile is an electricity tariff for existing Octopus customers only. If you're not already with Octopus, you'll need to move to their standard tariff while Agile is set up. The whole process usually takes around 14 ...

For a recent example, prices dropped to -10.08p/kWh at 3am on the 3rd Jan 2022, and -4.63p/kWh at 3pm on the 11th Jan 2022. But Agile has never never been done before, and that's because of the ...
