

American container-mounted power generation

MOBIPower hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada & USA.

Originally launched for limited markets in 2021, the 40-ft ...

Originally launched for limited markets in 2021, the 40-ft containerized generator sets were engineered for easy transportation, simple installation and are stackable, offering up to 34% ...

our eco° GEN-C series features all-in-one packaged power generation solution, engineered for mobility, easy deployment and scalability. Each power container is engineered to meet specific application ...

At MODS, we design and fabricate high-performance generator and power units built from shipping containers. Our solutions provide reliable energy generation and storage for industries, construction ...

SEA BOX's selection of generator sets can be connected to one or several refrigerated containers to provide reliable power with the need to connect to a local power source.

We offers containerized generator sets with CHP and Emission control system. With our genset containers offer optimal performance in various site conditions.

Containerized Battery Energy Storage Systems (BESS) are essentially large batteries housed within storage containers. These systems are designed to store energy from renewable ...

We've long had a reputation as a provider of never-before-seen power products -- and will offer you all the engineering and manufacturing support you need to customize your generator exactly to your ...

With its clip-on design and Carrier's commitment to quality, this generator supports the efficient operation of refrigerated containers, delivering superior reliability for your supply chain.

Jenbacher offers containerized generator sets based on our Type 2, 3, 4, and 6 gas engines. Leveraging the expertise acquired during several decades with more than 3,000 containerized units delivered, ...
