

# Anti-dumping of photovoltaic brackets

Which solar companies are subject to dumping duty?

SH) was ruled to be subject to a dumping duty rate of 21.31% on products manufactured in Malaysia and 56.51% on products manufactured in Vietnam. Trina Solar (688599. SH) is subject to a dumping duty of 77.85% on products manufactured in Thailand and 54.46% on products produced in Vietnam. JA Solar (002459.

Which Chinese PV companies have a dumping duty rate in Vietnam?

of the relevant Chinese PV companies with local production capacity have a dumping duty rate of more than 50% in Vietnam. According to the latest preliminary ruling, JinkoSolar (688223. SH) was ruled to be subject to a dumping duty rate of 21.31% on products manufactured in Malaysia and 56.51% on products manufactured in Vietnam.

Which crystalline silicon photovoltaic cells are excluded from the scope of this order?

Also excluded from the scope of this Order are crystalline silicon photovoltaic cells, not exceeding 10,000mm<sup>2</sup> in surface area, that are permanently integrated into a consumer good whose function is other than power generation and that consumes the electricity generated by the integrated crystalline silicon photovoltaic cell.

What are BIPV products?

BIPV products are materials integrated into the building envelope, such as the facade or roof, containing CSPV cells. These building integrated materials replace conventional construction materials, such as glass or roof shingles, taking over the function that conventional materials would otherwise perform while also producing electricity.

In the context of rising global trade protectionism, Chinese photovoltaic (PV) firms face increasing anti-dumping and countervailing (ADCV) trade barriers. Outward foreign direct investment ...

Final Affirmative Determinations in the Antidumping and Countervailing Duty Investigations of Crystalline Photovoltaic Cells Whether or Not Assembled into Modules from ...

China continues to impose anti-dumping and countervailing duties on solar-grade polysilicon imports from the United States and South Korea. This measure aims to prevent low-price ...

DETERMINATIONS On the basis of the record developed in the subject five-year reviews, the United States International Trade Commission ("Commission") determines, pursuant to ...

Photovoltaic products affected by this investigation include photovoltaic tracking bracket components, brackets and fasteners, which are made from aluminum profiles from the countries under ...

On 6 September, the European Commission (EC) announced to launch an anti-dumping investigation in China's photovoltaic (PV) batteries. Shi Dinghuan, chairman of the Chinese ...

# Anti-dumping of photovoltaic brackets

China has expressed concern over the United States' intention to politicize and weaponize trade investigations after the US issued preliminary anti-dumping duties on photovoltaic products ...

The U.S. Department of Commerce's International Trade Administration (ITA) today issued its preliminary determination of countervailing duties to be imposed on crystalline silicon ...

In September 2023, the Turkish authorities decided to maintain anti-dumping measures on solar photovoltaic module and panel imports originating from China, initially implemented in 2018.

Following the countervailing duty rate, the United States recently announced the preliminary ruling on the anti-dumping duty rate on photovoltaic cells in four Southeast Asian ...
