

Transformation of AES Galabovo into a large-scale energy storage facility using proven technology implemented in concentrated solar power plants (CSP) using molten salts

storage is hindering Bulgaria in the development of an energy storage market. Furthermore, Bulgaria's energy legislation and grid codes have been historically written with thermal plants in mind, ...

The Bulgarian city of Lovech, northeast of Sofia, hosts the strongest battery energy storage system (BESS) in the Balkans. The Ministry of Energy even said the new facility, with a ...

Some experts argue that so far energy storage is not a major issue in Bulgaria, thanks to Bulgaria's plentiful operational coal and nuclear capacities. However, the country needs to comply ...

Bulgaria is continuing its big battery rollout with the government announcing the commissioning yesterday (8 January) of one of Eastern Europe's biggest battery energy storage ...

Bulgaria is among the leaders in the European Union in terms of newly installed battery energy storage capacity. This is shown by data from SolarPower Europe for 2025, cited by the ...

Bulgaria has made significant progress in modernising its energy sector by officially commissioning one of the largest standalone battery energy storage systems (BESS) in Eastern ...

Energy Minister Zhecho Stankov has inaugurated the EU's largest local power-storage facility near Lovech, Bulgaria, the Energy Ministry announced Thursday.

International Power Supply has inaugurated Factory X1 near Sofia, marking Bulgaria's first BESS gigafactory with an initial 3 GWh annual capacity, rising to 5 GWh. The plant will deliver ...

A c.500MWh BESS project in Bulgaria has been inaugurated, claimed as the largest in the European Union (EU).

Bulgaria energy storage battery power station
