

With the most extensive array of sizes ranging from 42-52RU, heights of 600mm to 800mm (23.62" to 31.5"), and depths of 36" to 54", providing server and network cabinets that meet any specific ...

Explore Schneider Electric open and enclosed server rack and network rack solutions for a variety of environments including data centers, server rooms, network closets, offices, industrial, and specialty ...

Our study defines the Canada data center rack market as revenue generated from new, factory-built enclosures, quarter, half, and full cabinets, as well as open-frame and wall-mount ...

The Vertiv Knür SMA Compact Rack IP 54 is prepared for applications in rough environments, for example factories. It is completely closed and offers an IP rating up to IP 54.

This fully sealed micro data center offers 3.5 or 7.0 kW of scalable cooling capacity while enabling full rack utilization through an innovative zero-U design, allowing for more IT deployment in a single rack.

It has adjustable pivots that allow the rack to be locked into a closed or open (90-degree perpendicular) position. It minimizes cable flex and facilitates installation and ease of access.

The enclosure has a NEMA 12 protection rating, which is equivalent to IP54. That means it can protect your equipment from falling dirt, dust, drips, splashes and accidental contact with personnel.

Available in three models--24U with 3.5kW cooling capacity and two 42U options with 3.5kW or 7kW cooling capacity--the SmartCabinet(TM) ID ensures your equipment is safeguarded from harsh ...

There are protection ratings from IP00 up to IP69K. IP20 means that the rack is protected against solid bodies larger than 12 mm (e.g. fingers). There is no protection against the penetration of water. A ...
