

Edge computing user outdoor energy storage cabinet 800mm deep

EK's outdoor photovoltaic energy storage cabinet is an energy storage solution that integrates solar energy, battery management and intelligent control. It is suitable for scenarios such as ...

This premium Serveredge Cabinet is packed with features designed to simplify ...

This design ensures that the cabinet can withstand extreme temperatures and harsh conditions, such as those found in the Sahara Desert, providing reliable power for communication base stations and ...

To meet the protection needs of edge computing technology deployed outdoors, AZE has developed the RODF- Outdoor Enclosure range of IP rated cabinets that can be used to protect vital ...

Self-contained micro data center for edge computing. Comes with a built-in bottom-mounted cooling unit (5kW) with an integrated condensate water processing device, remote monitoring and management, ...

The APC NetShelter AR112SM is a 12U wallmount rack cabinet built from durable steel, ideal for edge computing in space-constrained environments. Featuring an 800mm depth (40.8 in), it's suited for ...

EDGE 5 is capable of cooling up to 2.5Kw, and will maintain the required internal cabinet temperature even when sited in a room ambient of 35°C/95°F. EDGE 5 is an 800mm wide by 120mm deep server ...

EnEdge delivers GPU-ready IT infrastructure, battery energy storage and liquid cooling -- all in one intelligent edge container. Available in 20ft and 40ft modular configurations, EnEdge is fully mobile ...

The Vertiv XTE 802 Series Network Edge Enclosure, constructed entirely of lightweight steel, ensures vital electronic equipment is protected from vandalism and environmental damage.

This premium Serveredge Cabinet is packed with features designed to simplify rack equipment installations and rack equipment maintenance: top-panel cable routing ports, perforated doors to ...

In-house IoT EMS hardware and software provide cost-effective solutions for managing distributed energy resources. Scalable from single asset control to complex microgrid and utility environments.
