

Fuchi Solar Power Station

This solar PV power plant is located in Nishishirakawa-gun, Fukushima Prefecture, Japan and operates under a Power Sale Agreement with Tohoku Electric Power Corporation, with a ...

It is one of the largest solar power construction projects in Japan, and is also the largest EPC project order for juwi Shizen Energy. The construction work is currently in progress and the plant will go into ...

Some of the most prominent solar installations are located near the towns of Futaba (above) and Tomioka (below). In 2014, Fukushima prefecture announced a goal of having all of its ...

186 hectares of abandoned farmland are now being used for the largest solar power plant ever designed and implemented by JUWI Shizen Energy. The solar park is located in Fukushima Prefecture, about ...

A joint venture between German project developer JUWI and Japanese peer Shizen Energy has hooked to the grid a 100-MW solar power facility in Fukushima City and then handed ...

Few projects better exemplify that than the Minamisoma Mano-Migita-Ebi solar power plant, which was the largest in Fukushima Prefecture until 2019 and is made up of 220,000 solar panels...

NTT Anode Energy, the energy company of the NTT Group, newly installed a solar power plant for NEC to supply power to NEC Platforms Fukushima Plant. The plant in Fukushima, using ...

JUWI Shizen Energy Inc. (JUWI Shizen Energy) has completed construction of a solar power plant of approximately 100MWp (DC) in Fukushima City, Fukushima Prefecture, and the ...

The solar park is located in Fukushima Prefecture, about 80 kilometers from the Fukushima Daiichi nuclear reactor. There, in March 2011, an earthquake and a tsunami triggered ...

Fukushima Sendatsuyama Solar PV Park is a ground-mounted solar project. The project is expected to generate 69,000MWh electricity and supply enough clean energy to power 23,000 ...
