

The Wales Gas-to-Energy (GtE) project contractor, LNDCH4 Guyana, has announced the arrival of the Backup Battery Storage System (BESS) which it says forms a critical part of the power ...

The project is being implemented under the Guyana Utility Scale Solar Photovoltaic Program, which is aiming to build 33 MW of utility-scale solar farms with accompanying Battery ...

See full statement from LNDCH4 Guyana LNDCH4 Guyana is pleased to announce the arrival of the Backup Battery Storage System (BESS) which landed at the John Fernandes wharf ...

LNDCH4, the U.S. joint venture building an integrated natural gas processing facility at Wales, announced on Friday the arrival of a 30-megawatt backup battery energy storage system ...

Why Energy Storage Can't Wait in Guyana You know, when we talk about renewable energy in the Caribbean, most folks immediately think of Jamaica's solar farms or Barbados' wind projects. But ...

Summary: Guyana's growing renewable energy sector is creating demand for reliable battery energy storage solutions. This article explores how local manufacturers are driving innovation, the ...

From flood-resistant battery racks to smart energy management software, Guyana's emergency power infrastructure is entering a new era. The right storage solutions don't just keep lights on - they keep ...

Guyana's landmark Gas-to-Energy project reached a critical milestone with the arrival of a 30-MW backup battery energy storage system (BESS) at Georgetown's John Fernandes Wharf, ...

After a period of dedicated efforts, on January 27, 2025, the Wakenaam Diesel and BESS Storage Project was officially completed. Sinopower was responsible for the entire supply and implementation ...

Why Guyana's Energy Landscape Is Ripe for Lithium Storage a country where lithium energy storage systems hum alongside roaring waterfalls and sun-soaked solar farms. Welcome to ...
