

Hospital-grade Spanish communication power cabinet constant temperature and humidity type

Our Constant Climate Cabinet (Desk-top Temperature & Humidity Chamber), which supports temperature and humidity tests in laboratories and research rooms using a network.

Constant climate chambers are available in different sizes and with different temperature and humidity ranges. Before purchasing, you need to consider in detail the applications for which you need the unit.

Air Innovations" sterile storage cabinets (SSC 4500) offer increased storage space with controllable temperature and humidity conditions--technologies that meet or exceed industry standards.

Controlled room-temperature cabinets create a stable environment for medicines and pharmaceuticals that need to be stored between 68°F to 77°F (20°C to 25°C). Note: Product availability is real-time ...

Air is evenly distributed from the top through louvered windows and diffusers, dispersing the temperature and humidity conditioned in the mixing chamber into the test space. This effectively ensures uniform ...

Our climate controlled storage cabinets deliver stable temperature and humidity, so rubber, polymer, and composite materials age slower, inspections pass more often, and field crews stay ready.

The six-model lineup includes 105- and 206-liter models available in four temperature (humidity) ranges and two sizes. All models support a single phase power...

Designed to meet the demanding requirements for precise humidity and stability, Advanced engineered design incorporates the latest in cabinet, refrigeration, temperature control and monitoring features.

The lineup consists of six models, with two size variations, 105 liters and 206 liters, and four temperature/humidity ranges, to accommodate your needs.

Temperature and humidity control system: 7-inch touch screen, the system has the functions of temperature control, humidity control, timing and over-temperature and over-humidity alarm; It is ...
