

How long is the warranty period for solar mounts

How long does a solar panel warranty last?

Solar panel manufacturers guarantee their products are free from material and workmanship flaws. Their warranty typically lasts for 10 to 25 years, offering extended coverage. Common Terms: Manufacturer warranties often cover defects in materials and workmanship, ensuring that the solar panels and inverters meet specific quality standards.

What is a solar power warranty?

A solar panel's power warranty ensures that it will generate a certain percentage of its original output through its expected lifespan. Also known as the performance warranty, today's top-tier solar panels are sold with power warranties of at least 80% electricity-generating capacity after 25 or 30 years.

How much does a solar panel warranty cost?

In most cases, the cost of a solar panel warranty is \$0. Solar manufacturers typically include both the product warranty and performance warranty with the purchase of the panels. A solar system is a long-term investment, with a typical lifespan of 25 to 30 years.

Are solar panels covered by a warranty?

A solar panel warranty doesn't cover the performance of your other system components like your inverter, mounting materials, or battery. These products are covered by their own separate warranties and are also vital for your system's long-term value and performance. What's the power warranty on solar panels?
