

# How much is the subsidy for Iraqi energy storage projects

The latest energy storage subsidy policy provides a subsidy of no more than 0.3 yuan/kWh for new energy storage stations with an installed capacity of 1 MW and above.

The plan includes several key pillars that support the government's goals to enhance Iraq's power infrastructure, as well as promote decarbonization and energy sector diversification.

To support this goal, the Central Bank of Iraq has launched a low-interest loan program (0.5%) for residential and small commercial solar projects. Eligible applicants can receive funding ...
