

How to sign a photovoltaic panel outsourcing contract

What should I know before signing a solar contract?

Before you sign the contract, be sure you understand the terms--including what happens if a system component breaks or the manufacturer goes out of business--and don't hesitate to ask questions. Check with your local government to find out if there are any solar consumer protection programs.

What should a solar panel contract include?

Your solar panels' contract should estimate how much energy will be produced and what savings the client can expect. This section of the agreement should clearly outline how the system's performance will be monitored and what guarantees are given. Solar power has many benefits for businesses and commercial properties, such as

What is a solar photovoltaic (PV) installation?

A solar photovoltaic (PV) installation comes with a proposal and a contract, so if you're thinking about going solar, it's important to understand what you'll be signing.

What are the different types of solar panel agreements & proposals?

There are different types of solar panel agreements and proposals available. The one you use will depend on a few different factors. These factors include whether you lease or buy solar panels and whether the contract is for a home, business, or even a large development. A power purchase agreement or PPA is similar to a solar lease agreement.
