

Hybrid type of energy storage cabinet for factory use

The LiHub Hybrid is a powerful all-in-one energy storage system with a built-in hybrid inverter, designed for industrial and commercial applications.

The Hybrid 50kW Energy Storage Power Cabinet combines a 50kW inverter with scalable 100-200kWh LiFePO4 batteries. Ideal for commercial and industrial use, it supports on/off-grid power, peak ...

Available in wall-mounted, floor-mounted, and stackable tower designs, it is ideal for homes and small businesses seeking energy independence, backup power, and optimized use of solar energy.

Our battery storage cabinets are constructed with a modular design, providing optimal flexibility for businesses across various sectors. Our power storage cabinets also adhere to safety and quality ...

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions offer remote ...

This compact system is designed to reduce installation costs and enhance energy efficiency. It supports high-voltage batteries (135-800V), offering optimized energy management with time-of-use and ...

Experience the future of energy storage with the High Voltage All-In-One Hybrid ESS solution, and unlock unparalleled efficiency, safety, and reliability for your energy management requirements.

ECO-E107WS integrates a 107.5 kWh LFP battery, hybrid inverter, HVAC, and advanced safety systems in a single all-in-one cabinet. With flexible expansion, modular design, and multiple operation modes, ...

With IP55 protection and industrial-grade components, the hybrid energy storage system ensures reliable performance in harsh conditions while minimizing maintenance costs.

Equipped with a robust 15kW hybrid inverter and 35kWh rack-mounted lithium-ion batteries, the system is seamlessly housed in an IP55-rated cabinet for enhanced protection against water and dust, ...
