

Intelligent power distribution and energy storage cabinets for subway stations

Powering a 5G outdoor base station cabinet, a solar microgrid, or an industrial power node, the energy cabinet integrates power conversion, energy storage, and intelligent management ...

We are a professional company engaged in electrical automation, committed to providing customers with integrated power distribution and automation solutions for high and low voltage electrical control ...

To cope with the problem of no or difficult grid access for base stations, and in line with the policy trend of energy saving and emission reduction, Huijue Group has launched an innovative ...

HuiJue's Base Station Energy Cabinet integrates mechanical protection, intelligent power distribution, and environmental control into one compact enclosure.

A function block is a custom block in Scratch. It's very efficient for some cases, including pen (If you try it out, I used the "run without screen refresh" for the instant drawing): But basically it ...

The technique you mentioned is used in many scratch games but there is two option for you when making the save/load system. You can either do it the simpler way which makes the code ...

This simple shooter game is supposed to result in the sprite shattering and disappearing when hit. It will work maybe 40% of the time. Here's the link to the project and the relevant code ...

How do you make a breakable loop in Scratch? I'm using Scratch 2.0 and can't find any good way to make a loop breakable, from inside of the loop itself.

For people looking to advance their skills in Scratch and add gravity and jumping to your 2D game. Simple to use and easily optimizable. This can work for platformers or other fun-skilled ...

The scratch image is the most minimal image in Docker. This is the base ancestor for all other images. The scratch image is actually empty. It doesn't contain any folders/files ... The scratch ...

My project no longer saves in Scratch 3.0. I tried refreshing and going to My Stuff but that did not help. The project does not contain any large files, but there are large blocks of code. To try t...

Discover the Pole-Type Base Station Cabinet with integrated solar, wind energy, and lithium batteries. Designed for seamless installation and remote monitoring, this energy-efficient cabinet ensures ...

Intelligent power distribution and energy storage cabinets for subway stations

0 Cloud variables have limitations, for example, you cannot store letters and symbols in cloud variables. Also cloud variables always would take an eternity to reload, like I tried in my scratch ...

But when I create a variable (I've used scratch 2 and 3) I get But I would like to get is this: I just watch a tutorial in which was told that for cloud to work you have to be a scratcher for at ...

These two devices work together: the power cabinet distributes electricity to multiple devices, while the intelligent monitoring system supplies both power a...

The cabinet has power distribution units, intelligent switches, monitoring/control modules, and fiber-optic interfaces (ODF/WDM) housed in a weatherproof cabinet.
