Drop us a line! info@solarhome.ie Trust Ireland's premier solar energy providers since 2006. Our expert solar panel installers deliver premium solar panels and installation services with SEAI solar grants available for maximum savings.

How do solar panels work in Ireland?

Imagine arriving at your home, greeted by sleek solar panels seamlessly integrated into the roof. These panels harness Ireland's sunlight and store excess energy in state-of-the-art batteries. You can use this stored energy during peak electricity times or when sunlight is scarce. Keeping your home powered throughout the day and night.

How much solar electricity is produced in Ireland?

In Ireland, around 75% is produced from May to September. If this electricity is not used in the home it is exported to the grid. It is desirable to maximise the amount of solar electricity you use in your home. You can do this by sizing the solar PV system to meet your demand.

What is the largest solar farm in Ireland?

One of the largest solar farms in Ireland, located in County Wexford, was completed in 2021. The project, developed by a leading renewable energy company, spans 50 acres and has an installed capacity of 30 MW. The solar farm was designed to supply clean energy to thousands of homes in the region.
