

Italy's photovoltaic market is soaring past 40 GW in 2024. Discover the key drivers, government incentives, and future outlook for solar installations in Europe's second-largest market.

Italy installs 6.4 GW of solar in 2025 The country's cumulative installed PV capacity reached 43.5 GW at the end of December, according to the latest figures released by Italian grid ...

Italy has exceeded 2 million grid-connected photovoltaic (PV) installations, establishing solar power as a cornerstone of the national electricity system. According to Italia Solare, this milestone represents a ...

Italy Installs 6.4 GW of Solar in 2025, Cumulative Capacity Reaches 43.5 GW Italy deployed 6,437 MW of new PV capacity in 2025, according to new data released by Italian grid ...

In 2024, Italy recorded a new peak with around seven gigawatts of new photovoltaic capacity. By 2030, the National Energy and Climate Plan calls for about 80 gigawatts to be installed ...

According to data processed by Italia Solare based on Terna's Gaudì database, Italy has achieved a significant milestone by exceeding 2 million photovoltaic (PV) systems connected to the ...

ACCIONA Energía will build two new photovoltaic plants in Sicily after securing 151MW of solar capacity in Italy's latest FERX public renewable energy auction. The Spanish renewable ...

In 2024, Italy achieved its strongest year of solar growth in over a decade, installing 6.7 GW of new photovoltaic (PV) capacity and bringing cumulative capacity to 37 GW. PV generation reached 36 ...

ACCIONA Energía will build two new photovoltaic plants in Sicily after securing 151MW of solar capacity in Italy's latest FERX public renewable energy auction. The two solar projects, ...

Zenith Energy, the listed international energy production and development company, has announced the acquisition of an agrivoltaic project at development stage located in the Piedmont ...

Italy s new solar panels
