

Large container dual generator set

This high-voltage container generator configuration supports large-scale data centers with medium-voltage infrastructure. Powered by the renowned MTU engine, it provides efficiency, stability, and ...

Gas engine containers are used for a wide variety of applications and can be single or dual fuel units. The containers can be equipped for heat recovery, emissions reduction, absorption chilling, heat ...

The Twin Power container solution is a container that combines two engine/alternator assemblies with/without CHP in a 40ft container, making it perfect for applications that require variable or continuous ...

Centum™ Force, a Cummins Power Generation containerized generator sets range, provide significantly shortened installation and commissioning time. The stackable design allows for a smaller ...

800 kW Tier 2 Mobile Diesel Generator Set with Low Hours - Call CI Group: (775) 446-5558

Built for resilience, this compact, containerized generator is the ideal choice for data centers, disaster recovery, large construction projects, telecom operations, and industrial facilities.

Originally launched for limited markets in 2021, the 40-ft containerized generator sets were engineered for easy transportation, simple installation and are stackable, offering up to 34% ...

Simply put, dual packs are two parallel generators in one ISO container: Two 500 kW generators could be paralleled to achieve a 1000 kW output, or two 625 kW generators to achieve 1250 kW. This dual ...

Our factory-packaged containerized generator sets are designed to address these challenges comprehensively. They offer a reduced footprint, improved ease of transportation and significantly ...

We offer customized containerized diesel generator sets that reliably adapt to harsh environments such as oilfields and offshore platforms.
