How much does a 440w solar panel cost in New Zealand?

A single 440W solar panel in New Zealand costs around \$230. But panels are just one part of the puzzle - you'll also need an inverter, mounting gear, and professional installation to turn those panels into a fully functioning solar power system. Find out how to choose solar panels here. [Should I Wait For The Price Of Solar To Fall?](#)

How do I choose the right solar installer in New Zealand?

Choosing the right solar installer in New Zealand is as crucial as selecting the right solar system. With various providers offering different packages, pricing structures, and levels of service, a direct comparison can help homeowners find the best value.

How many solar panels do I need in New Zealand?

Figuring out how many solar panels you need for your home in New Zealand doesn't have to be a head-scratcher. It all comes down to your household's energy habits, roof space, and how much sunshine your area gets. Most Kiwi homes opt for systems between 4kW and 8kW, which translates to around 9 to 19 solar panels.
