OverviewHistoryUnited Kingdom operationsUnited States operationsSee alsoBefore 1990, both the generation and transmission activities in England and Wales were under the responsibility of the Central Electricity Generating Board (CEGB). The present electricity market in the United Kingdom was built upon the breakup of the CEGB into four separate companies in the 1990s. Its generation (or upstream) activities were transferred to three generating companies -- PowerGen, National Power, and Nuclear Electric (later British Energy, eventually EDF Energy)--and its transmissio...
