

# Outdoor solar integrated charging panel

What is the best solar power charger for outdoor use?

Our overall winner is the 1 pound,5 ounce BigBlue 28W USB Solar Charger for most outdoor use. It's a simple,lightweight,and powerful solar power charger that seems to provide a little more power than its competition. It will also provide enough power in direct sunlight to charge multiple small devices for one or two people.

Which solar charger is best for base camping?

The Goal Zero Nomad 50 is a larger solar charger that is our winner for best for base camping. At 50 watts,it's the biggest and heaviest solar charger we tried. Like the Nomad 20,it can be linked to other solar panels and the only one that can be attached in a series to provide even greater charging power to a battery power bank.

What is a solar power charger?

There's a lot to understand about solar power chargers,but at their heart,a small solar panel consists of several photovoltaic cells grouped together to absorb some of the sun's energy and convert it into an electric charge that you can use to charge electronics.

Which solar panel has a DC charging output?

The FlexSolar 40W solar panel has a DC charging output,and it put out more power from this output than the USB-A output we used for our main test. Credit: Sam Schild The BigBlue SolarPowa 30 and Blavor 30W Foldable each have a DC charging port as well.
