

Solar Thermal Power Generation Technology Conference

The future and development prospects of solar thermal power generation technology are finally discussed.

To further promote the exchange and cooperation of solar thermal power generation and related technologies, the CSTA plans to organize the 19th China Solar Thermal Power Generation ...

On May 29th, the 12th China International Solar Thermal Conference 2025, co hosted by CSPPLAZA Solar Thermal Power Platform and Zhejiang Kesheng Technology Co., Ltd., with the ...

The SolarPACES-conference is a globally recognised conference in the field of concentrating solar thermal energy. It offers space for dialogue and discussion between stakeholders ...

Development of solar thermal power generation is important for China's energy transition. Therefore, we established a system dynamics model to predict the development trend of solar thermal power ...

This Special Issue aims to capture the latest research in advanced heat collection, heat storage, and thermodynamic cycles for solar thermal power generation technology and heat batteries.

In this paper, an LSTM neural network is constructed to predict hourly power generation of the PTSTPS, and the model is tested and optimized by using test samples. Finally, the predicted ...

Solar Energy Conferences 2026 2027 2028 is for the researchers, scientists, scholars, engineers, academic, scientific and university practitioners to present research activities that might want to ...

From June 19-21, 2024, manufacturers, suppliers, distributors, service providers, project planners, and developers will gather to discuss the latest developments and trends in the sustainable energy ...

Attend this pre-conference excursion to the Capitol Hill and gain hands-on experience in solar policy advocacy. Discover how your advocacy efforts can shape a brighter future for our one shared planet. ...
