

Storage low-voltage grid-connected cabinet solution

Modern low-voltage PV grid-connected cabinets feature a modular design, integrating intelligent protection devices, metering instruments, and communication modules. They continuously monitor ...

The ESS-GRID Cabinet series are outdoor battery cabinets for small-scale commercial and industrial energy storage, with four different capacity options based on different cell compositions, 200kWh, ...

The 120 kW automatic switching cabinet integrates STS-based control, protection, and monitoring functions to enable safe and automatic grid-connected and off-grid operation works with energy ...

Imax Power's smart low-voltage hybrid cabinet leverages "functional integration, professional protection, and adaptive flexibility" to deliver end-to-end solutions for PV, wind, and other new energy systems, ...

A reliable and efficient power distribution solution designed for photovoltaic grid-connected systems. The GGD cabinet integrates protection, control, measurement, and monitoring functions, ensuring safe, ...

To ensure seamless integration of photovoltaic and energy storage power into the grid, the AC low voltage grid-connected cabinet features exceptional power quality optimization capabilities.

It is connected in series between the grid-connected inverter and the energy storage cabinet. The product has a series of protections, including energy meter, undervoltage tripping, low grid voltage, ...

Bidirectional power flow control: Traditional LV switchgear cabinet only supports one-way power supply, while the new generation of products has bidirectional power flow control capability, ...

We specialize in designing and manufacturing high-performance energy storage systems, offering a wide range of battery cabinets and containerized solutions for commercial, industrial, renewable ...

For new energy projects of different sizes, our AC low-voltage grid-connected cabinets can provide customized solutions.

Storage low-voltage grid-connected cabinet solution
