

Xinghuo Solar Panel Production Area

Daqing Oilfield Xinghuo Solar PV Plant is a floating solar project which is spread over an area of 400,000 square meters. The project generates 27,500MWh electricity thereby offsetting ...

The solar workshop implements electrostatic dust-free management, has highly automated production lines, a complete range of testing equipment, and has established a research and testing center.

The project, which has a construction area of 400,000 square meters and an installed capacity of 18.73 MW, generates 27.5 million kWh of electricity per year and reduces 22,000 tonnes of carbon dioxide. ...

The PV station was connected to the grid on July 1, 2022. It has a construction area of 400,000 square meters and an installed capacity of 18.73 MW. It is expected to generate 27,500 MWh of electricity ...

This report is your guide to identifying lucrative opportunities within the Daqing Oilfield Xinghuo Solar PV Plant, showcasing your offerings, and boosting your chances of securing valuable contracts.

Detailed profile including pictures, certification details and manufacturer PDF.

Daqing Oilfield Xinghuo Solar PV Plant is a floating solar project which is spread over an area of 400,000 square meters. The project generates 27,500MWh electricity thereby offsetting 22,000t of ...

It is reported that the Xinghuo Photovoltaic Power Station uses two water surfaces, with a construction land of 400,000 square meters and an installed capacity of 18.73 MW. Emitting 22,000 ...

Jiangsu Xinghuo solar energy lighting Co., Ltd is high-tech enterprise which has 10 years experience in the area of energy-saving and outdoor lighting. From 2006, we specialized in the R& D, manufacture ...

As of November 8, PetroChina's first surface solar panel project, Daqing Oilfield Xinghuo Photovoltaic Power Station, has been running smoothly for 131 days, with a ...
